CONTEMPORARY SALSA

RAY BARRETTO . . . . . Amor Artificial
Indiferencia
Indestructible
Arallué
Pura Novela
Vive Y Vacila
Aguardiente de Caña
Guararé

EDDIE PALMIERI . . . . . La Malanga
Páginas De Mujer
1983
Palo Pa' Rumba
Bomba De Corazón

FANIA ALL-STARS . . . . . Juan Pachanga
Sin Tu Cariño
Nací Moreno
Encántigo

TITO PUENTE . . . . . Déjame Soñar
Te Desafio
Ran Kan Kan
Picadillo

RUBEN BLADES . . . . . Pablo Pueblo
Siembra
Camaleón

LOS VAN VAN . . . . . Sandunguera
Que Sorpresa
Muévete

NG LA BANDA . . . . . Un Tipo Como Yo
Lo Que Siento Es Le Lo Ley

MANNY OQUENDO'S LIBRE . . . . . Elena, Elena
Estoy Como Nunca

PUERTO RICO ALL-STARS . Changüirí
El Cantar Del Coquí

ISSAC DELGADO . . . . . Son De Cuba A Puerto Rico
Dime Tú Que Lo Sabes

LOUIS RAMIREZ . . . . . Amantes
Déjala Que Baile Sola

IRAKERE . . . . . Bailando Así
Lo Que Va a Pasar

CONJUNTO CESPEDES . . . . Virgen De La Caridad

MACHETE ENSEMBLE . . . . La Patria Del Son

CELIA CRUZ . . . . . Soy Antillana

PETE "EL CONDE" RODRIGUEZ . . . . . Pueblo Latino

SALSA CLASSICS

ARSENIO RODRIGUEZ . . . . Dile a Catalina
Dame Un Cachito Pa' Huelé
La Vida es un Sueño

CONJUNTO CHAPPOTTIN . . . . . Camina Y Prende El Fogón
Que Se Fuñan

ORQUESTA ARAGON . . . . . Almendra
Tres Lindas Cubanas

JOHNNY PACHECO . . . . . Recuerdos de Arcaño
El Agua del Clavelito
La Esencia Del Guaguancó

CELIA CRUZ . . . . . Yerbero Moderno
Bemba Colorá

PEREZ PRADO . . . . . Mambo #5
Mambo #8

ORQUESTA SENSACION . . Suavecito
Bruca Maniguá

BENY MORE' . . . . . Y Hoy Como Ayer

JOSE FAJARDO . . . . . Los Tamalitos de Olga
La Charanga

ARCANO Y SUS MARAVILLAS . . . . . Angoa

TITO RODRIGUEZ . . . . . Bilongo

STANDARDS . . . . . A Mí Qué
Bésame Mucho
Cachita
Capullito de Alelí
Compadre Pedro Juan
Contigo en la Distancia
Déjala Que Siga Andando
Echale Salsita
El Manisero
Frenesí
La Comparsa
La Engañadora
Lágrimas Negras
Lamento Boricano
Mayeya, No Juegues Con Los Santos
Me Voy Pa'l Pueblo
Obsesión
Pa' Gozar
Pare Cochero
Rico Vacilón
Solamente Una Vez
Son de la Loma
Y Tú ¿Que Has Hecho?

BRAZILIAN CLASSICS

IVAN LINS ..... Lua Soberana
Amor
Sambadoura
Sonhos
Leva E Traz (Elis)
Aparecida

TOM JOBIM ..... Outra Vez
Retrato Em Branco E Preto (Zingaro)
Look To The Sky
Só Danço Samba

TONINHO HORTA ..... Mountain Flight
Meu Canário Vizinho Azul
Aqui, Oh!

JOÃO BOSCO ..... A Nivel De
Coisa Feita
O Bêbado E A Equilibrista

MILTON NASCIMENTO ... Vera Cruz
Novena
Don Quixote

AIRTO ..... Mixing
Anatelio (The Happy People)
Tombo in 7/4

APPENDIX 1 - Rhythm Section Appendix		553
APPENDIX II - Sources		569

PUBLISHER'S FOREWORD

We at Sher Music are thrilled to be able to present to you the first professional-level Latin fakebook, "THE LATIN REAL BOOK".

Ever since my friend Rebeca Mauleón-Santana first introduced me to the world of Afro-Cuban music, it has captivated me with its beauty and strength of purpose. As Eddie Palmieri said in an interview in *Down Beat*, "From the first album I recorded, the rhythmic structures have been there. You see, I don't *guess* I'm going to excite you; I *know* I'm going to excite you. It's because of the structures that I sacredly maintain, which are Afro-Cuban."

I am hoping this book will open the ears of the jazz world to the many wonders of Latin music; at its best, jazz and Latin music are a marriage made in heaven. In addition, we are proud to document the music itself, for the first time in most cases, and to enable any interested musician world-wide to play these world-class tunes. I hope you enjoy using it as much as I've enjoyed putting it together!

We have tried in this book to create charts that, if played correctly, would faithfully recreate the essential aspects of the tune. But only so much translates to the printed page. Therefore, **PLEASE FIND AND LISTEN TO THIS MUSIC.** There is no substitute for hearing the recordings themselves! Check the "Sources" Appendix for the names of the recordings used to compile this book.

The recordings of virtually every tune in this book can be found in one of the following:

1. The "Latin Real Book Sampler CD" with re-issues of 12 original recordings found in the book. See our ad on the back page.
2. The Descarga Catalog - a truly amazing mail-order source of virtually every important Latin recording available. Send for their catalog to "Descarga" , 328 Flatbush Ave, Brooklyn, NY 11238. Their phone number is (718)693-2966 or (800)377-2647 for credit card orders. Descarga has done a real service to the music world. Don't miss it!
3. For Brazilian music, try "Brazil CDs". If they don't have it in stock, they can order any CD available in Brazil. They are at: P.O.Box 382282, Cambridge, MA 02238. Their phone number is (617)666-3747.
4. For a good all-around source for Latin, Caribbean, African and other world music recordings, get the "Round World Records" catalog. They are at 593 Guerrero St., San Francisco, CA 94110.

Much more so than jazz, Latin music is "part"-oriented, i.e. each member of the group has a specific role to play in the interlocking web of rhythms. Please see the "Rhythm Section Appendix" for a brief overview of each instrument's role in various styles of Latin music. The tunes in this book, for the most part, are not designed to be sight-read, but rather require rehearsal to get the different parts to "lock in". If you are not already in a band playing Latin music, I suggest you organize a rehearsal band to work on these arrangements. "The deeper you go, the better it gets", as the saying goes!

Because of the complexity of many of these arrangements, we only had room for a portion of the ones that deserve publication. (Space considerations also accounts for not translating the introductory material into Portuguese, as well as Spanish). But Volume Two of THE LATIN REAL BOOK will be out in a few years, we hope, with even more great Latin music. Please write and let us know what you'd like included to: SHER MUSIC CO., P.O.Box 445, Petaluma, CA 94953.

I'd like to thank the people that worked so hard at getting this book to fruition; First and foremost, Larry Dunlap and Rebeca Mauleón-Santana for a Herculean transcribing task, meticulously and accurately done. Phenomenal! Ernie Mansfield, Ann Krinitsky and Chuck Gee for preparing the beautiful manuscript. All the publishers of the tunes who graciously allowed us to include them in this book. The members of "The One World Latin Band" - Bob Afifi, Dave MacNab, Raul Ramirez, Al Guzman, Kendrick Freeman, Phil Thompson and Wayne de la Cruz - for road-testing many of these tunes and bringing the music alive for me. And to Kendrick especially for his careful work on the rhythm section appendix. Ann Hyland, Sue Claxton, Sky Evergreen, Attila Nagy, Nelson Faria, and Maury and Jonathan Sher (among many others) who have all been of great help in the four years that it took to create this book. Thanks!! Thanks again to my sweet wife and partner, Sueann, for all her love and caring. And of course, the composers, performers and arrangers of the tunes in the book, who have created a body of music that expresses much of the best in the human spirit.

Lastly, I would like to thank the people of Latin America and the Caribbean, whose culture spawned such incredible music. In tribute to them, a portion of the profits of this book will be donated to non-profit agencies working to improve living conditions in Latin America and the Caribbean, and also to non-profit agencies in the US who are supporting the growth of Latin music here.

Chuck Sher

PROLOGO EDITORIAL

Es un orgullo para la compañía Sher Music presentarles esta primera colección profesional de transcripciones de música latina (afro-caribeña), titulada "THE LATIN REAL BOOK".

Desde que mi amiga Rebeca Mauleón-Santana me introdujo al maravilloso mundo de la música afro-cubana, me quedé encantado de su hermosura y su constancia. Como dijo el maestro Eddie Palmieri en una entrevista en la revista *Downbeat*, "Desde el primer disco que grabé, han estado presentes estas estructuras rítmicas. Como Ustedes ven, no *adivino* que les voy a apasionar; *sé* que les voy a apasionar. Esto resulta porque mantengo, como cosa sagrada, esas estructuras, que son afrocubanas."

Espero que este libro ayude a presentar al mundo del jazz esta maravillosa música latina. Sin duda, la unión del jazz y la música latina resulta ser una unión mágica. Nos enorgullece incluir en esta colección muchas obras musicales nunca antes editadas, y brindar la oportunidad a todos los músicos del mundo de tocar estas importantes canciones. ¡Ojalá Ustedes disfruten usando este libro tanto como yo disfruté al agrupar todas las obras!

Las partituras presentadas en este libro - tocadas correctamente - recrean los aspectos esenciales de cada obra. Pero como por supuesto es casi imposible transcribir todos los detalles de una interpretación musical, recomendamos que **BUSQUE Y ESCUCHE ESTA MUSICA.** En el apéndice titulado "Sources" (Origen y Ubicación) aparecen los títulos de las obras incluídas en este libro, junto con los discos (o compactos) donde se pueden encontrar, tanto como otras versiones.

Las grabaciones de casi todas las obras en este libro se pueden localizar en los siguientes lugares:

1. El "Latin Real Book Sampler CD", que contiene 12 reediciones de canciones incluídas en el libro. Vea nuestro anuncio en la portada de atrás.
2. El catálogo *Descarga* (envios por correo) - una fuente asombrosa de casi todas las grabaciones más importantes de música latina. Pidan el catálogo a la siguiente dirección: "Descarga", 328 Flatbush Ave., Brooklyn, New York, 11238. Tel: (718) 693-2966, o (800) 377-2647 para solicitudes con tarjeta de crédito. Descarga ha hecho muchísimo por el mundo musical. ¡No se lo pierda!
3. Para la música brasileña, pida información a *Brazil CDs* al P.O. Box 382282, Cambridge, MA 02238. Tel: (617) 666-3747. Si no tienen lo que busca, *Brazil CDs* tiene los medios de encargar cualquier disco compacto disponible directamente de Brazil.
4. Otra fuente buena de música latina, caribeña, africana y otros estilos menos comerciales es el catálogo de *Round World Records*, localizado en 593 Guerrero St., San Francisco, California, 94110.

Mucho más que el jazz, la música afro-caribeña requiere una interpretación basada en los patrones rítmicos de cada instrumento, y cada uno de estos instrumentos tiene un papel muy específico dentro de la estructura rítmica del conjunto. Para mayor información sobre estas estructuras y estilos rítmicos, vea el "Rhythm Section Appendix" (Apéndice de Sección Rítmica). Es importante mencionar que las obras contenidas en este libro no están diseñadas para ser leídas a primera vista, sino que requieren ensayarse para lograr la sincronización de todos los elementos del conjunto. Si Usted todavía no ha tenido la oportunidad de tocar este tipo de música, le sugiero que organice un grupo de ensayo para practicar estos arreglos. Para lograr buenos resultados, es importante profundizar y conocer toda la riqueza de esta música.

Debido a la complejidad de muchos de estos arreglos, no pudimos incluir todas las obras que realmente merecen ser editadas. Pero es nuestra esperanza poder incluir muchas más en el próximo volumen de THE LATIN REAL BOOK. Por favor, escríbanos sus sugerencias a: SHER MUSIC CO., P.O. Box 445, Petaluma, California, 94953

Quisiera agradecerles a todos los que participaron en la realización de este proyecto. Antes que todo a Larry Dunlap y Rebeca Mauleón-Santana, por el trabajo hercúleo de transcripción, hecho escrupulosamente y con exactitud. ¡Fenomenal! A Ernie Mansfield, Ann Krinitsky y Chuck Gee por la preparación del lindo manuscrito. A todos los editores de las obras, quienes bondadosamente nos permitieron incluirlas en este libro. A los miembros del grupo "The One World Latin Band" - Bob Afifi, Dave MacNab, Raúl Ramírez, Al Guzmán, Kendrick Freeman, Phil Thompson y Wayne de la Cruz - por ensayar muchas de las canciones, y dar vida a esta música. Especialmente a Kendrick también por su trabajo cuidadoso en el Apéndice de Sección Rítmica. Ann Hyland, Sue Claxton, Sky Evergreen, Attila Nagy, Nelson Faria, y Maury y Johnathan Sher (entre muchos más) quienes han ayudado y nos han apoyado muchísimo durante los cuatro años que llevó la creación de este libro. ¡Muchas gracias! Gracias también a mi querida esposa y compañera, Sueann, por todo su cariño y apoyo. Y por supuesto, a todos los compositores, ejecutantes y arreglistas de las canciones incluídas en el libro, quienes han creado una colección musical que expresa mucho de lo mejor del espíritu humano.

Por último, quisiera darle las gracias a los pueblos de Latinoamérica y el Caribe, cuya cultura creó música tan inigualable. En honor a ellos, donaremos una parte de las ganancias de este libro a varias agencias no-lucrativas que se dedican al mejoramiento de las condiciones humanitarias en Latinoamerica y el Caribe, tanto como otras organizaciones no-lucrativas en los Estados Unidos que se dedican al crecimiento y desarrollo de la música latina aquí.

Chuck Sher

MUSICAL EDITORS' FOREWORDS

When I first heard "Latin" music in San Francisco back in the 1970's, I was immediately intrigued by the wonderful polyrhythmic structures. The music was so exciting, so inviting, I couldn't help but move to it, and knew that I had to play it. Of course, I was faced with a problem: how and where would I go about learning this music? It certainly wasn't offered at any academic institutions. Nor was it present in any mainstream broadcast media. There were no books or other instructional materials available. Essentially, I did what so many other Latin music aficionados did: obtain recordings, learn by ear and ask a lot of questions! However, one can only memorize so much information and so many tunes. We all wanted to learn not only a good, solid repertoire, but the history of the music as well. For me, this quest became an all-consuming search for anything I could find - books, recordings, videos, articles, interviews, etc... And I knew that before long, I would have to travel to the various geographic sources of this music to uncover more.

Well, twenty years later, I still feel like I'm beginning to discover the mysteries and wonders of this "Afro-Caribbean" music. (What I did learn is that "Latin" as a term just doesn't explain enough). If one truly aspires to play any music with authenticity, you must assimilate aspects of the music's culture; know the language, the customs, the history, the philosophy, the controversies, the joys and sorrows of the people and their music. This is truly the music of the Americas, the product of many different cultures in one big melting pot - African, European, Caribbean, North and South American. Its study requires several lifetimes, and unfortunately we have only one (that we know of!). Fortunately, there are now many resources and informational materials available, including books, videos and play-along CDs, and this book will certainly give you quite a head start and a wealth of information never before available, so take advantage! All I can suggest is to immerse yourself, listen, play and improvise with passion. Travel to the Caribbean and other areas where this music is played. Purchase recordings, attend live performances, and seek the guidance of working professionals in the field. Don't just scratch the surface, and don't be shy - you can't be shy with this music!

I also must give my heart felt thanks to several individuals who gave their all throughout the conception (and "birth") of this project. First and foremost, to my loving husband Manuel and son Alejandro, for their support, tolerance and inspiration; to my parents, Judith, Isidoro and Cy, for editing and nurturing (once again!); to my compadre John Santos, whose immeasurable wealth of knowledge of this music and, above all, love and respect for it are too deep for words; to Chuck and Larry for making this monster project an actual reality; to Darsi Fernández Maseira, for unconditional help; the staff of the Editora Musical de Cuba, and finally, to all of the composers and performers of this music, past and present.

Cuando escuché la música afro-caribeña por primera vez en la ciudad de San Francisco en los años 70, me quedé fascinada por sus maravillosas estructuras polirrítmicas. La música era tan alegre y encantadora, que no pude aguantar las ganas de bailar, y sabía que en algún momento iba a interpretarla musicalmente. Pero tuve que enfrentar un problema serio: ¿donde poder estudiar esta música? La triste realidad es que no se ofrecía este tipo de música en ninguna academia musical, ni había libros ni otros materiales instructivos a mi disposición. La única opción que tenía era hacer lo mismo que hacían otros aficionados e interesados; comencé a coleccionar discos, aprendí por oído y le pregunté a todos los que sabían algo. Pero por supuesto, me resultó imposible seguir memorizando tanta información y tantas canciones. Todos mis colegas queríamos no solo aprender un repertorio básico y bueno, sino también obtener información sobre la historia de la música afro-caribeña. Para mí, esta búsqueda se convirtió en una gran pasión, y comencé a coleccionar libros, grabaciones, videos, artículos, entrevistas con músicos, etc... Sabía que en algún momento tendría que viajar a los países donde nació esta música para profundizar mis estudios.

Aún después de veinte años siento que todavía estoy descubriendo los misterios de la música afro-caribeña. (Lo que sí he aprendido es que, como término, la palabra "latina" no sirve para correctamente identificarla). Si uno realmente se quiere dedicar a la auténtica interpretación de un tipo o estilo musical, es imprescindible que asimile los aspectos de su cultura, el idioma, las costumbres, la historia, la filosofía, las controversias, las alegrías y las penas del pueblo y su música. Esta es la música de las Américas, el producto de varias culturas mezcladas - la africana, la europea, la caribeña, la norte y la suramericana. Su estudio requiere más que una sola vida, aunque - desafortunadamente - solo tenemos una. Lo bueno es que estamos en una etapa de acceso a mucha información y recursos informativos (como libros, videos, etc..), y este libro le puede adelantar bastante con su enorme cantidad de información. Le sugiero que estudie profundamente, que escuche, toque e improvise con mucha pasión. Viaje al Caribe y otros países donde se interpreta esta música, compre discos, vea presentaciones en directo, y consulte con músicos profesionales que le puedan orientar. No se limite a explorar solo la superficie, y no sea tímido - ¡no se puede ser tímido con la música afro-caribeña!

Quiero agradecer de todo corazón a algunas personas quienes han sido muy importantes a lo largo de la realización de este proyecto. En primer lugar, quisiera agradecerles a mi querido esposo Manuel y mi hijo Alejandro, por su apoyo, paciencia e inspiración; a mis padres, Judith, Isidoro y Cy, por su ayuda editorial y cariño sin medida; a mi compadre John Santos, quien posée una cantidad inmedible de conocimiento y respeto por esta música; a Chuck y Larry, por convertir en realidad un gigantesco proyecto; a Darsi Fernández Maseira, por su ayuda y apoyo incondicional; al equipo de trabajo de la Editora Musical de Cuba, y por último, a los creadores y ejecutantes de esta música del pasado y del presente.

Rebeca Mauleón-Santana

About three years ago Chuck Sher started talking to me about his plans for publishing a fakebook of Latin music that would include selections from Cuba, Puerto Rico, Brazil and other southern spots, as well as Latin jazz tunes. I was already very familiar with his fakebooks of jazz tunes and standards; conscientiously accurate and clearly written publications that have become "required" resources for most of today's students of jazz and professional musicians alike.

Chuck's enthusiasm for the "LRB" project, a book devoted solely to Latin music, soon had me excited about working on the transcriptions and editing. Little did I suspect what I was getting into. The tapes started arriving and I set sail on a musical voyage to exotic ports, opening my ears to rhythms and forms that were (to me) new and seductive.

As a jazz musician, I have been in love with Brazilian music for many years. The beautiful, pure melodies, the jazz-flavored harmonies, the rhythmic complexity and fire and the heart-felt passion of this wonderful music have drawn me ever closer. (My awareness of the strong poetry and messages of the lyrics came much later.) I looked forward to helping to introduce people to some of the Brazilian composers I have loved such as Djavan, Milton Nascimento, Toninho Horta, and especially Ivan Lins, among others.

Salsa music was only marginally in my music vocabulary. I anticipated learning at least a bit about clavé and Rumba. As I began transcribing music sent to me by Chuck and the great pianist and Afro-Cuban authority Rebeca Mauleón-Santana, I realized that my knowledge of Brazilian music was a bit limited and the world of Salsa music was more complex and colorful than I ever imagined. Transcribing, playing and studying the music in this book has been a tremendous learning process for me. I have become passingly familiar with a myriad of musical styles, forms and rhythms, all loosely refered to as Latin music.

As you get to know the compositions in THE LATIN REAL BOOK, you will find new and nourishing musical gems; material which will open your ears and your heart. Over the past couple of years I have told many musicians about this work-in-progress. Without exception, each has said something like, "It's about time! When can I see it?" Well, here it is! Enjoy!

Some "thank yous" are in order. Claudio Amaral and Claudia Villela helped extensively with the lyrics to the Brazilian songs. Ernie Mansfield endured my detailed charts and last-minute changes with admirable patience. My very understanding wife, Bobbe Norris, put up with a lot of grumbling and nerves, late night work sessions at the piano and an unsightly collection of inconveniences. Rebeca Mauleón-Santana's Salsa expertise and research are at the foundation of much of this book. I owe her something very special for finding the recordings and writing her great charts. Without her this book would not have been possible. Thanks, Rebeca!

Finally, Chuck, you did it again! Thanks for your vision, your patience and your attention to detail. (What's the next project?)

Hace unos tres años, me contó Chuck Sher su idea de publicar una colección de música latina que incluiría obras de Cuba, Puerto Rico, Brasil y otros lugares "sureños", tanto como obras de Latin jazz. Ya estaba familiarizado con sus libros de canciones de jazz y "standards" - ediciones que siempre han sido claramente escritas y escrupulosamente precisas, y que se han convertido en importantes recursos para muchos músicos de jazz, tanto aficionados como profesionales.

El entusiasmo que demostraba Chuck por este libro dedicado exclusivamente a la música latina pronto me motivó a la tarea de la transcripción y edición. No tenía la menor sospecha de lo que me esperaba. Comenzaron a llegar los casetes con las canciones grabadas, y emprendí una travesía musical a lugares exóticos, abriendo mis oídos a ritmos y estilos nuevos y seductores.

Siendo músico de jazz, he estado enamorado de la música brasileña por varios años. Sus bellas y puras melodías, armonías con sabor a jazz, complejidad rítmica, fuego y pasión me han atraído a ella aún más. (Mi conocimiento de sus mensajes literarios y poéticos llegaría mucho más tarde). Esperé con entusiasmo el poder presentar al público los compositores brasileños quienes tanto admiraba, como Djavan, Milton Nascimento, Toninho Horta, Ivan Lins (en particular) y otros.

Mi vocabulario "salsero" era muy limitado, pero por lo menos pensé que aprendería algo sobre la clave y la rumba. Al comenzar el trabajo de transcripción de las canciones enviadas por Chuck y la excelente pianista y autoridad sobre la salsa - Rebeca Mauleón-Santana - me di cuenta que mi conocimiento de la música brasileña era algo limitado, y que el mundo de la salsa era mucho más complejo y pintoresco de lo que me imaginaba.

El transcribir, tocar y estudiar la música contenida en esta edición ha sido un proceso muy instructivo para mí. He podido conocer una gran variedad de estilos musicales, estructuras y ritmos, todos categorizados de forma general como música "latina". Al familiarizarse usted con las obras del LATIN REAL BOOK, encontrará nuevas joyas musicales que le ayudarán a abrir sus oídos y su corazón.

En los últimos años, he comentado con muchos músicos sobre este proyecto, y sin excepción, todos me han respondido igual: ¡"Ya era hora! ¿Cuando sale?" Aquí usted lo tiene. ¡Que lo disfrute!

Debo agradecerles a Claudio Amaral y a Claudia Villhela, quienes ayudaron muchísimo en la letra de las canciones brasileñas. A Ernie Mansfield, quien aguantó con admirable paciencia mis partituras complicadas y cambios frecuentes. A mi comprensiva esposa, Bobbe Norris, quien soportó mis quejas, mi estado nervioso, los desvelos del trabajo en el piano y el desorden de nuestro hogar. También debo agradecerle a Rebeca Mauleón-Santana por haber encontrado las grabaciones y escrito buenísimas partituras. Su destreza y trabajo investigador sobre la salsa sirve de base de una gran parte de esta obra. Gracias, Rebeca. Por último, a Chuck: ¡Has vuelto a las andadas! Gracias por tu visión, tu paciencia y tu atención a los detalles. (¿Cual es el próximo proyecto?)

Larry Dunlap

Regarding the Salsa and Latin Jazz tunes...

Some Notes on Rhythmic Style

From the outset it is important to state that all of the songs in this collection represent a small part of the many rhythmic styles within the general "Latin Music" family. There are, of course, hundreds of other styles and interpretations. It is also pertinent to mention that, in many cases, these tunes are very specific arrangements or versions of traditional songs, and may not always be presented in their original form.

Many of the "Salsa" and Latin Jazz charts in this collection come from the "traditional" school, meaning that their rhythmic styles are quite specific. Keep in mind that "Salsa" is not a rhythm or a specific style. Rather, it is a term as broad as "Jazz", "Brazilian" or "Rock", and contains numerous styles from various cultures. Within the "Salsa" family, there are several rhythmic styles which are frequently used. Also, one might distinguish the labels of "Salsa" and "Latin Jazz" as dance music versus music for listening, respectively, although these divisions certainly are not consistent. Regardless, there are several rhythmic styles which are most common within both genres, including Guaracha, Mambo, Cha-cha-chá, Bolero, Bomba, Merengue, Son and many others. (See the "Basic Vocabulary" below for descriptions of the rhythms and other terminology, as well as the "Rhythm Section Appendix" for transcriptions). In addition to the traditional rhythms, there are some examples of hybrid rhythms (such as "Guaracha-Mambo", "Afro-Son", "Son-Montuno", "Bolero-Son", etc...) which are the result of innovations and combinations of both styles; these appear hyphenated. It goes without saying that, while these hybrids may or may not be considered "standard", they seem to work well within their respective arrangements. In order to fully understand the concept, one must obviously be familiar with each of the styles which form part of these hybrid rhythms.

Also in this collection are several charts which feature or alternate between two different styles. These are indicated with a slash separating each term, such as "Bomba / Guaracha", "Danzón / Descarga", "Guaguancó / Guajira-Son", "Songo / Gaita", etc... Each particular arrangement might alternate several times between styles, or may feature each style one time only. Note that there are several charts where the tempo is also affected by these style changes, sometimes moving to double time or half time. When this occurs, there will be a new tempo marking as well.

In some of the charts where there is a 6/8 section, there may be a basic transcription of the percussion patterns. Often, these sections are played by *batá* drums, or they might be *batá* rhythms played on congas. *Batá* drumming is extremely complex and demands life-long study, but some basic understanding is well worth any drummer or percussionist's time.

Another style consideration has to do with the more "gray area" of contemporary interpretation, where there are elements present that are obviously "traditional", but played within a more Funk or Jazz-oriented concept. Here we have opted to be somewhat flexible, utilizing terms such as "Jazz-Son" or "Funk Salsa". In other cases, the style may be more traditional rhythmically, but the recorded arrangement may have more of a Latin Jazz flavor. Here we opt for such categories as "Songo (Latin Jazz style)", indicating perhaps a slightly freer approach (not so dance-oriented, for example). Still other tunes come from the *Charanga* tradition, and vary stylistically from the interpretation (of similar styles) by a "Salsa Band" approach. For example, while the style of Guaracha is the most prevalent throughout the "Salsa" repertoire, a Guaracha as interpreted by a Charanga orchestra would be somewhat different rhythmically (see "Rhythm Section Appendix"). Therefore, these tunes will be identified as "Charanga style" in order to differentiate them from the Conjunto-style tunes.

Some Important Clave Information

As stated in the Publisher's forward, this is not music which can be easily sight-read. Furthermore, anyone who knows anything about the wonders of Latin music knows of the importance of the *clave* rhythm, and of its effects on the rhythmic as well as melodic and harmonic aspects of the music. The *clave* is as elementary to Latin music as "swing feel" is to jazz. You must truly know it in order to interpret the music faithfully (and correctly). So, with this in mind, here is some basic information about *clave* indications in this book:

1. Unless indicated *rumba clave*: | ♩ 𝅗𝅥. 𝅘𝅥𝅮 𝅗𝅥 𝅘𝅥𝅮 | 𝄽 ♩ ♩ 𝄽 |
the type of *clave* used will be *son clave*: | ♩ 𝅗𝅥. 𝅘𝅥𝅮 ♩ | 𝄽 ♩ ♩ 𝄽 |

2. Anything in 6/8 meter would use the 6/8 *clave* pattern: | 𝅘𝅥𝅮. 𝅘𝅥𝅮. 𝅘𝅥𝅮 𝅘𝅥𝅮 | 𝅗𝅥 𝅘𝅥𝅮. 𝅘𝅥𝅮. 𝅘𝅥𝅮 |

3. Clave direction will be stated either at the beginning of a tune, or following a pick-up, and indicated as "3-2" or "2-3". 3-2 *clave* means that the bar with 3 accents is followed by the bar with 2 accents. 2-3 *clave* would be the opposite. Note that Brazilian music also has its own *clave* pattern (| ♩ 𝅗𝅥. 𝅘𝅥𝅮 ♩ | 𝄽 ♩ 𝅗𝅥. 𝅘𝅥𝅮 |), and also follows the concept of forward and reverse direction, although perhaps not as rigidly as in Cuban-based music.

4. Any changes in *clave* direction will be indicated within a tune. These changes may be the result of either the presence of an odd number of measures in a phrase, or of a "jump" in the *clave* (an undesirable but often unavoidable condition in some arrangements). Changes in the type of *clave* pattern may also result, such as in a style change from a rhythm in 4/4 to another rhythm in 6/8, as well as the change to a double time feel or a half time feel.

5. The *clave* pattern may not actually be played literally in a particular arrangement. Rather, it may be implied within the song and among the various rhythmic patterns played by the ensemble.

Información sobre los Estilos Rítmicos de la Salsa y el Latin Jazz

Para comenzar, es importante aclarar que todas las obras contenidas en esta colección representan una pequeña muestra de los numerosos estilos rítmicos que forman parte de la música "latina". Hay, por supuesto, muchísimos más. También es importante mencionar que algunas de estas obras son arreglos o versiones de canciones tradicionales, y no se presentan en su forma original.

Muchas de las partituras de los géneros de "salsa" y "latin jazz" provienen de un repertorio bastante típico, y sus estilos rítmicos son muy particulares. Tenga en cuenta que la "salsa" no se refiere a un ritmo o estilo específico, sino es un término tan amplio como el "jazz", la música brasileña o el "rock", y contiene numerosos estilos de varias culturas. Dentro de lo que denominamos la "familia de la salsa" existen estilos rítmicos que se utilizan con más frecuencia que otros. También uno puede distinguir los términos de la "salsa" y el "latin jazz" como música bailable y música "para escuchar", respectivamente, aunque esta división tampoco es consistente. De todas maneras, los estilos rítmicos que más se utilizan en los dos géneros son la *guaracha*, el *mambo*, el *cha-cha-chá*, el *bolero*, la *bomba*, el *merengue*, el *son* y otros. (Vea la sección titulada "Vocabulario Básico", para las descripciones de estos estilos y otra terminología importante, y el apéndice de "Sección Rítmica" para las transcripciones). Además de los estilos tradicionales, algunas obras se distinguen por sus estilos híbridos (como la "guaracha-mambo", el "afro-son", el "son-montuno", el "bolero-son", etc..) que resultan ser innovaciones y combinaciones de ambos estilos; estos están escritos con guión. Es importante mencionar que estos híbridos no siempre representan lo "estandard" con respecto a la interpretación, sino que se han unido (y suenan bien) dentro del arreglo donde aparecen. Hay que estar familiarizado con cada estilo individual para entender mejor este concepto.

También en esta colección hay canciones que alternan entre dos estilos diferentes. Estos se indican con línea diagonal, por ejemplo "bomba / guaracha", "danzón / descarga", "guaguancó / guajira-son", "songo / gaita", etc.. En estos arreglos se puede ver la alternación entre los dos estilos, o tal vez un estilo seguido por el otro una sola vez. Debe tener en cuenta que habrá momentos donde también haya un cambio de velocidad debido al cambio de estilo, como de doble tiempo a la mitad de velocidad. En estas ocasiones se indicará el cambio con una nueva indicación de movimiento.

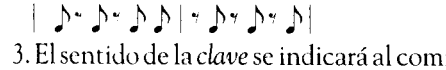
En las obras que contienen una sección en seis-por-ocho (6/8), puede ser que aparezca transcrito un patrón básico para la percusión. Por lo general, estas secciones suelen ser tocadas en los tambores *batá* (vea el "Vocabulario Básico"); otras veces son ritmos de *batá* tocados en las *tumbadoras*. El toque de *batá* es un fenómeno bastante complejo, y, desde luego, requiere toda una vida de estudio. Vale la pena para todos los bateristas y percusionistas tener por lo menos una base de información sobre este tipo de tamboreo.

Otro detalle respecto a la cuestión estilística tiene que ver con la interpretación de estilos más contemporáneos, donde se combinan elementos tradicionales con los conceptos basados en el jazz o el "funk". Aquí hemos querido mantener más flexibilidad en la terminología, utilizando términos como "jazz-son" o "funk-salsa". En otros casos, puede ser que un arreglo esté basado en un estilo tradicional, pero que tenga influencias del "latin jazz". En estos casos utilizamos categorías como "Songo (al estilo de latin jazz)", para indicar una interpretación más "abierta", que no enfoque tanto lo bailable, por ejemplo. Por otro lado tenemos las obras de la tradición de la *charanga*, que se distinguen en su interpretación comparadas con las obras interpretadas por un *conjunto* o grupo de "salsa". Por ejemplo, la *guaracha* es unos de los estilos más comunes en un repertorio "salsero", pero su interpretación por una orquesta de *charanga* sería muy distinta a la de un *conjunto* de salsa (vea el apéndice de Sección Rítmica). Desde luego, estas obras se identificarán como "charanga style" (al estilo de la *charanga*) para diferenciarlas de las obras del mismo estilo interpretadas por *conjuntos*.

Información Importante Sobre La Clave

Como hemos mencionado en el Prólogo Editorial, esta música no es fácil de leer a primera vista. Incluso, todo el que conozca algo sobre la maravillosa música "latina" debe conocer la importancia del ritmo de la *clave*, y de su presencia alrededor de los aspectos rítmicos y armónicos de la música. La *clave* es algo elemental en esta música, tanto como el "swing" es para el jazz. La *clave* es un concepto esencial en la interpretación auténtica de la música afro-caribeña, y por eso es inprescindible conocerla profundamente. Teniendo esto presente, he aquí alguna información básica sobre las indicaciones de la *clave* en esta edición:

1. Las indicaciones de la *clave* aparecen de dos maneras: con "rumba clave" - refiriéndose a la *clave de rumba*:



- y "clave" sencilla, referiéndose a la *clave del son*:

2. Obras en seis-por-ocho (6/8) utilizarán la *clave* de seis-por-ocho (6/8):

3. El sentido de la *clave* se indicará al comienzo de la obra, o después de una anacruza, con los términos "3-2" o "2-3". Tenga en cuenta que la música brasileña tiene su propia *clave* -

- y también sigue las mismas reglas con respecto al sentido o dirección, o sea, entrando en el primer tiempo o al revés, aunque tal vez el concepto no sea tán rígido como en la música de orígen cubana.

4. Se indicará cualquier cambio de sentido (o dirección) de la *clave* en una canción en el lugar donde ocurre. Estos cambios suelen ocurrir debido a la presencia de un número impar de compases en una frase; también puede cambiar el sentido de *clave* después de un "brinco", o sea, que se toque el mismo compás de la *clave* dos veces seguidas. Esto resulta contrario a las "reglas" del concepto de *clave*, pero a veces es inevitable en un arreglo. En otros casos, puede verse un cambio de <u>tipo</u> de *clave*, por ejemplo, al cambiar de un estilo rítmico en 4/4 a un estilo en 6/8, o de tiempo sencillo a doble tiempo.

5. El ritmo de la *clave* no se tiene que tocar en el arreglo necesariamente, sino que puede estar implícita en los patrones rítmicos de los instrumentos (en el conjunto).

Basic Vocabulary

(Excerpted from the Salsa Guidebook for Piano and Ensemble, by Rebeca Mauleón, ©1993, Sher Music Co.).
* All terms with an asterisk appear in the Rhythm Section Appendix.

afro* - a rhythmic style combining adaptations of sacred *batá* drum rhythms, popularized in Cuba in the 1940's, and often used to interpret lullabies.

baqueteo* - the rhythmic pattern played by the timbales in the Cuban style known as *danzón*.

batá (drums) - the sacred, two-headed drums of the Yoruba people of Nigeria, also found in Cuba.

bolero* - a slow, lyrical ballad.

bomba* - a style of Afro-Puerto Rican music and dance which is also commonly found in salsa repertoires, typically played on *bomba* drums, which are similar to *conga* drums, although shorter and more barrel-shaped.

cáscara* - 1. the shell or sides of the *timbales*; 2. the pattern played on the shell or sides of the *timbales*.

cha-cha-chá* - a rhythmic style derived from the early Cuban danzón-mambo, created by violinist Enrique Jorrín (who named the style upon hearing the scraping sounds of dancers' feet). The cha-cha-chá eventually became a separate musical style from the danzón.

charanga - a specific style of instrumentation, consisting of rhythm section (contrabass, piano, *timbales*, and *güiro*), strings (from two to four violins, or any number of violins with a cello), and one wood flute. The conga drum was added in the 1940's. This term (and style of instrumentation) evolved from the *charanga francesa*, developed in the early 20th century.

clave (patterns)* - a five-note, bi-measure pattern which serves as the foundation for nearly all of the rhythmic styles in salsa music. The *clave* consists of a "strong" measure containing three notes (also called the *tresillo*), and a "weak" measure containing two notes, resulting in patterns beginning with either measure, referred to as "three-two" or "two-three". There are two types of *clave* patterns associated with popular (secular) music: *son clave* and *rumba clave*. Another type of *clave* - *6/8 clave* - originated in several styles of West African sacred music.

conga (rhythm)* - a style of Cuban carnaval music typically played on acoustic percussion instruments and horns, in ensembles known as *comparsas*.

conjunto - a type of instrumentation which evolved and was defined around 1940, consisting of piano, bass, bongos, conga, *tres*, guitar, four trumpets and three singers (often playing minor percussion). The *conjunto* style has remained as the definitive sound for the "salsa" band, although there have been many combinations in instrumentation.

coro - "chorus".

coro/pregón - the call-and-response relationship between the lead vocal soloist, or *pregonero*, and the fixed choral response, or *coro*. In salsa song form, this takes place during the open vamp section called the *montuno*.

danzón* - a Cuban musical and dance form developed in the late 19th century, which is derived from the European Court and Country dances, as well as the *contradanza* and the *danza*. The instrumentation which generally interprets this style is known as the *charanga* orchestra, featuring strings and flute with a rhythm section. The *danzón* form consists of: an introduction called the *paseo* (A), the principal flute melody (B), a repeat of the introduction (A), and the violin trio (C). Innovations by several composers lead to the addition of a fourth section (D) called *nuevo ritmo*, later known as *mambo*. This section added elements of the Cuban *son*, and established an open vamp over which the flute, violin or piano would improvise.

descarga - "unloading" (lit.); a jam session, as well as an improvised tune.

guaguancó* - one of three styles of Cuban *rumba*, featuring a heightened polyrhythmic structure, and danced by male-female couples (in its traditional folkloric setting). The typical instrumentation (used by all styles) includes: *tumbadoras* (congas) or *cajones* (boxes), *palitos* (sticks) or *cucharas* (spoons), *claves*, and *marugas* (shakers). It may be simplified when interpreted by an ensemble.

guajeo - the repeated figure played by the string instruments in a particular ensemble, such as the *tres'* vamp in a *conjunto* instrumentation, or the violin vamp in a *charanga* instrumentation. Also used to refer to repeated horn lines, such as in a layered *mambo* section.

guajira* - an arpeggiated and floral song form, derived from the Cuban *son* and peasant music styles.

guaracha - traditionally a music and dance form from Cuba's comic opera, which developed into a form of street music, featuring satirical lyrics. Now generally associated with tunes of moderate tempo.

güira - a metal scraper used for Dominican *merengue*, scraped with a metal fork.

güiro (instrument) - a serrated gourd or calabash, scraped with a stick, which is extremely popular throughout Latin America. It has both African and indigenous American roots.

güiro (6/8 rhythm) - a rhythmic style, so-named because of its interpretation on the beaded gourds known (at first) as *güiros*, and later, *chékeres*. In addition to the *chékeres*, a bell and a tumbadora may be added.

mambo (rhythm) - 1. The section added to the *danzón* form (in the 1940's) which featured an open vamp and instrumental improvisation. 2. An up-tempo dance style, developed through the 40's and 50's, which blended several elements of North American instrumentation and harmony with elements of the Cuban *son*.

mambo (section) - the section of an arrangement which features new material, including layered horn lines called *moñas*.

merengue* - a rhythmic style from the Dominican Republic, which is a fast two-step, and is traditionally played on *tambora*, *güira* and accordion.

montuno (piano) - the repeated, syncopated vamp played by the piano in an ensemble.

montuno (section) - the open vamp section of a song, which features the *coro/pregón* (call-and-response singing) and instrumental solos.

moña - a horn line (either written or improvised), as well as a section featuring layered, contrapuntal horn lines. Moñas may occur during a mambo section, or during the *montuno* section, such as in a "shout" chorus underneath a soloist.

plena* - an Afro-Puerto Rican rhythm, traditionally played on *panderetas*, which is an important form of popular music. The *panderetas* resemble tambourines without the jingles.

pregón - the lead, improvised vocal which alternates with the fixed choral response, or *coro*.

rumba - a Cuban folkloric secular form, consisting of drumming, dancing and call-and-response singing which contains both African and Spanish roots. There are three styles of rumba: the *yambú*, *guaguancó* and *columbia*.

son* - a style of popular dance music of the peasant or working-class, combining several Spanish and African elements. The *son* began to take shape in the latter half of the 19th century in Cuba's Oriente province, and gave birth to several hybrids, including the *afro-son*, *guajira-son*, *son-pregón* and *son-montuno*. The *son* is perhaps the most important form at the root of today's popular salsa music.

songo* - a series of developing percussion patterns, blending several Cuban styles with elements of jazz and funk. Songo was initially created by Los Van Van bassist/director Juan Formell in the 1970's, together with original drummer Blas Egües, and was revolutionized by drummer José Luis Quintana "Changuito".

tumbao (bass) - the repeated pattern played by the bass, often accenting beats 2+ and 4. The pattern is a mixture of influences from the styles of the *contradanza* and the *son*.

tumbao (congas) - the repeated pattern played by the *tumbadoras* (conga drums) in the majority of the popular styles in Salsa, also referred to as *marcha* (march), emphasizing the fourth beat of the measure, as well as beat 4+.

Vocabulario Básico

(Extracto del libro Salsa Guidebook for Piano and Ensemble, por Rebeca Mauleón, © 1993, Sher Music Co. Pronto estará disponible una versión de este libro en español. ¡No se lo pierda!).
* Todos los términos con asterisco aparecen en el Apéndice de la Sección Rítmica.

afro* - un estilo rítmico que combina adaptaciones de los toques litúrgicos del tambor *batá*. Este estilo se popularizó alrededor de los años 40 en Cuba, y se utilizaba frequentemente en la interpretación de canciones de cuna.
baqueteo* - el patrón rítmico tocado por los *timbales* en el *danzón* cubano.
batá (drums) - tambor sagrado y bimembranófono de origen yoruba de Nigeria (Africa), que también se ha desarrollado en Cuba.
bolero* - estilo musical lento y lírico.
bomba* - estilo de música y danza afro-puertorriqueño que también forma parte del repertorio "salsero". Suele tocarse en los tambores *bombas*, que son similares a las *tumbadoras* (o *congas*), pero más bajas y en forma de barril.
cáscara* - 1. la parte exterior de los *timbales*; 2. el patrón rítmico tocado en el exterior de los *timbales*.
cha-cha-chá* - estilo musical derivado del género del *danzón-mambo* cubano, creado por el violinista Enrique Jorrín, quien le puso el nombre al observar los pasos de los bailadores cuando raspaban el piso. El cha-cha-chá se convirtió en su propia especie, separándose del *danzón*.
charanga - tipo específico de agrupación, formada por sección rítmica (contrabajo, piano, *timbales* y *güiro*), cuerdas (de dos a cuatro violines, o violines y violincello) y flauta de madera. La *tumbadora* se le agrega alrededor de los años 40. La *charanga* proviene de la *charanga francesa* de los principios del siglo 20.
clave (patrones)* - una frase binaria compuesta de cinco notas, que sirve de fundamento de casi todos los estilos rítmicos de la música "salsa". La frase de la clave se compone de un compás "fuerte" de tres notas, también llamado *tresillo*, y un compás "debil" de dos notas. El sentido de la clave se define por la dirección en que uno comience a tocar la frase, comenzando con el primer compás (o "tres-dos") o el segundo compás ("dos-tres"). Los dos tipos de clave más utilizados en la música popular son las claves del *son* y de la *rumba*. Otro tipo de clave - la clave de seis-por-ocho (6/8) - proviene de la música religiosa del Africa de la música religiosa del Africa Occidental.
conga (ritmo)* - un estilo de música carnavalesca, normalmente tocada con instrumentos de percusión y trompetas, en agrupaciones conocidas como *comparsas*.
conjunto - tipo de agrupación surgido alrededor de los años 1940, integrado por piano, contrabajo, bongó, tumbadora, guitarra, tres, cuatro trompetas y tres cantantes (que tocan percusión menor). El *conjunto* llega a ser la agrupación definitiva de la salsa, a pesar de las numerosas posibilidades y combinaciones de instrumentación.
coro/pregón - el intercambio del solista vocal, o *pregonero*, con el coro (o estribillo). En los arreglos de "salsa", esto suele ocurrir en la sección llamada *montuno*.
danzón* - género musical y bailable que surgió a fines del siglo 19, derivado de la contradanza europea, tanto como la contradanza criolla, la danza y la habanera (cubanas). El danzón se toca generalmente por agrupaciones llamadas *charangas*, donde se destacan la flauta y los violines. Su estructura consta de una introducción, o *paseo* (A), la primera parte, donde se luce la técnica del flautista (B), volviendo a la introducción repetida, que sirve como puente (A), seguido por la parte de los violines (C). Innovaciones de varios compositores transformaron el danzón, añadiendo una cuarta parte (D) titulado *nuevo ritmo*, y luego, *mambo*, que incorporó elementos del *son* cubano, y estableció una sección más abierta donde se pudieran lucir el flautista, pianista o violinista, tanto como el bailador.
descarga - una canción improvisada; un encuentro improvisado entre músicos. El término (en inglés) más común entre músicos es "jam session", que proviene del jazz.
guaguancó* - uno de tres estilos del importante género cubano cantable y bailable, la *rumba*, donde se destaca la estructura polirrítmica. Se interpreta percutiendo *tumbadoras* (congas) o *cajones* , palitos o *cucharas*, *claves*, y *marugas* (sonajas), y se baila por pareja. Suele simplificarse al ser interpretada por un conjunto de salsa.
guajeo - el patrón repetido por los instrumentos de cuerda, como el *tres* en la agrupación del *conjunto*, o el violín de la *charanga*. Este término también se puede usar refiriéndose a los patrones repetidos por los metales en la sección del *mambo* de una canción.
guajira* - género cantable, derivado del *son* cubano y la música campesina. El acompañamiento instrumental suele tocarse libremente, con muchos arpeggios en la guitarra y el piano.
guaracha* - género cantable y bailable de origen del teatro bufo en Cuba, que luego pasó a los salones de baile. Su texto solía ser satírico, burlón y picaresco. Hoy en dia el término "guaracha" se refiere a las canciones de salsa de aire moderado.
güira - instrumento percusivo y cilíndrico de metal, cuya superficie se raspa con un tipo de tenedor metálico, utilizado en el *merengue* dominicano.
güiro (instrumento) - instrumento percusivo y cilíndrico, formado por una calabaza con surcos paralelos que se raspan con un palo. Tiene raices indígenas tanto como africanas.

güiro (ritmo en 6/8) - estilo rítmico de procedencia folklórica africana, interpretada en los instrumentos primero conocidos como *güiros*, y luego *chekerés*. También se le añade una campana y tumbadora.

mambo (ritmo) - 1. La última parte o sección del *danzón* (anteriormente llamado *nuevo ritmo*), donde se destaca un solista sobre una base de *montuno*. 2. Género bailable de aire rápido que se desarrolló durante los años 40 y 50, y combinó los conceptos armónicos e instrumentales del jazz norteamericano con elementos del *son* cubano.

mambo (sección) - la sección de un arreglo donde se destacan los metales en forma escalonada, llamadas *moñas* en la terminología salsera.

merengue* - baile y estilo rítmico de la República Dominicana, tocado tradicionalmente en la *tambora*, la *güira* y el acordeón.

montuno (piano) - el patrón repetido y sincopado, tocado por el piano en la agrupación.

montuno (sección) -la sección abierta y repetida de una canción, donde alternan el pregón y el coro, y se destacan solos instrumentales.

moña - línea melódica y rítmica de los metales (escrita o improvisada), a veces tocada en forma escalonada. Las moñas suelen ocurrir durante las secciones de *mambo* o el *montuno*, y sirven también para animar al solista.

plena* - estilo de música folklórica afro-puertorriqueña, tocado típicamente en las *panderetas* puertorriqueñas (que no tienen las sonajas metálicas) y el *guayo* (*güiro*).

pregón - línea vocal improvisada por el cantante solista, que alterna con el coro.

rumba - género folklórico y profano afro-cubano con raíces africanas y españolas, interpretada con instrumentos de percusión, bailado y cantado de forma antifonal. Los tres estilos se identifican como el *yambú*, el *guaguancó* y la *columbia*.

son* - género vocal, instrumental y bailable de origen campesino, con raíces españolas y africanas. La estructura del son se definió en la última mitad del siglo 19 en la provincia de Oriente de Cuba, y generó varios híbridos como el *afro-son*, la *guajira-son*, el *son-pregón* y el *son-montuno*. El *son* es una de las formas más importantes como antecedente de la salsa.

songo* - una serie de patrones rítmicos de percusión que combina influencias de varios estilos cubanos con elementos del jazz y el funk. El songo fué creado alrededor de los años 70 por Juan Formell, bajista y director de Los Van Van de Cuba, juñto con el percusionista Blas Egües, y fué desarrollado por el percusionista José Luis Quintana "Changuito".

tumbao (bajo) - el patrón repetido y anticipado (sincopado) del contrabajo, que acentúa los golpes 2+ y 4 de cada compás. El *tumbao* es producto de los estilos de la *contradanza criolla* y el *son*.

tumbao (tumbadoras) - el patrón repetido de las tumbadoras (congas) en la mayoría de los estilos rítmicos de la salsa, también llamado *marcha*, que ace que acentúa el cuarto golpe de cada compás, asi como el golpe 4+.

GENERAL RULES FOR USING THIS BOOK

FORM

1. Key signatures will be found at the top of page one, and at the top of page three for tunes longer than two pages. Any change of key will be noted not only where it occurs but also at the start of the next line. The key signature holds even if there is a change of clef, and is not restated. A change of key to C Major will appear as a clef followed by the naturals needed to cancel the previous key signature.
2. The Coda sign is to be taken only when ending the tune unless otherwise stated. Some tunes have dual Codas (and) to make it possible to fit a complex tune on two pages.
3. All repeats are observed during a 'D.C. al Coda' or 'D.S. al Coda' except in the following cases:
   a) when a Coda sign appears in a repeated section; the Coda is taken before repeating (unless marked 'on repeat').
   b) when an instruction to the contrary appears (e.g. 'D.S. al 2nd ending al Coda').
4. A Coda sign just within repeats is taken before repeating. A Coda sign just outside of repeats is taken after repeating.
5. When no solo form is specified, the whole tune is used for solos (except any Coda).
6. Till Cue | On Cue signifies dual endings for a section that repeats indefinitely. The 'till cue' ending is played until cue, at which point the 'on cue' ending is played instead.
7. A section marked '4x's' is played four times (repeated three times).
8. A section marked 'ENDING' is played to end a tune; it directly follows the last bar of the head.

CHORDS

9. Chords fall on the beat over which they are placed.
10. Chords carry over to the next bar when no other chords or rests appear.
11. Chords in parentheses are optional except in the following cases:
    a) turn arounds
    b) chords continued from the line before
    c) verbal comment explaining thier use (for solos, for bass but not piano, only at certain times, etc.)
12. Optional chords in parentheses last as long as the chord they are written over or until the closing parenthesis is encountered, whichever is longer.
13. Written-out piano or guitar voicings are meant to be played as written. Chord symbols appearing with such voicings often will not describe the complete voicing; they are meant to aid sight reading and are often used for solos.
14. Multiple voices playing different rhythms are separated by having their stems lie in opposite directions whenever possible.

TERMS

15. An 'altered ' dominant chord is one in which neither the fifth nor the ninth appears unaltered. Thus it contains b5 &/or #5, and b9 &/or #9.
16. 'Freely' signifies the absense of a steady tempo.
17. During a 'break.....' piano, bass and drums all observe the same rests. The last beat played is notated as or to the left of the word 'break'.
18. A 'sample bass line', 'sample solo', or 'sample fill' is a transcribed line given as a point of reference.

TRANSPOSITIONS

19. Bass lines are always written to be read by a bass player, i.e. one octave higher than they sound.
20. Tenor sax and guitar lines are often written an octave higher than they sound and flute lines an octave lower to put them in a more readable range. There will be a verbal note to this effect in every case.
21. All horn and harmony parts are written in concert key (not transposed).

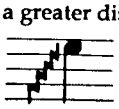
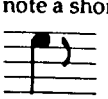
ORNAMENTS AND SYMBOLS

Slide into the note from a short distance below

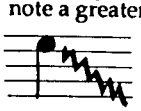
Slide into the note from a greater distance below



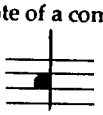
Fall away from the note a short distance



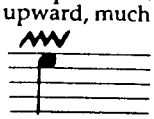
Fall away from the note a greater distance



Top note of a complete voicing

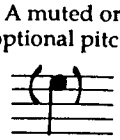


A rapid variation of pitch upward, much like a trill



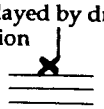
Mordent

A muted or optional pitch



Note with indeterminate pitch

Rhythm played by drums or percussion



CHORD SYMBOLS

The chord symbols used in this book follow (with some exceptions) the system outlined in "Standard Chord Symbol Notation" by Carl Brandt and Clinton Roemer. It is hoped you will find them clear, complete and unambiguous.

Below are two groups of chord spellings:

1) The full range of chords normally encountered, given with a C root, and

2) Some more unusual chords, all of which appear in tunes in this book. (Note: some groups of notes below could be given different names, depending on context. See previous page for a definition of 'altered' chords).

Second Verse:

Vanderley e Odilon
bem mais unidos empataram capital
e estão montando restaurante natural
cuja proposta é cada um come o que gosta. (Mmm . . .)
Yolanda e Adelina
bem mais unidas acham viver um barato
e pra provar tão fazendo artesanato
e pela amostra Yolanda aposta na resposta. (Mmm . . .)
E Adelina não discorda (Ah . . .)
que pinta e borda com o que gosta. (Ah . . .)
É positiva essa proposta
de quatro: hum, hum . . . O.K. . . . tá bom . . . é . . .
Só que Odilon ensopapa o Vanderley com ciúme
e Adelina dá na cara de Yoyo . . .

Ending:

Vanderley e Odilon (to "Ending")

Atras De Nos

Richard Boukas

Med. Samba ♩ = 124

©1991 Diatessaron Music. Used by Permission.

Lyric at letters D & E on repeat:

Aprendo o que deixamos,
Enche o coração com muito sofrimento.
Dizendo-me que nunca mais a caçoado e feito.
Eu prefiro a caminhar adiante e isolado
Novos ventos vai, mente clara vai!

Lyric at letters D & E after Guitar solo:

Poderemos por isto atrás de nós
Conheciamos todo tempo que não sentia bem.
Devemos descobrir a verdade, a falsidade ficado
A teu sorriso congelado, deve desmaiar.
Novos ventos vai, mente clara vai!

Melodic rhythm is freely interpreted. 6/9 chords may also contain the major 7th.

Solo on form (ABC)
After solos, D.S.
Vamp & fade on letter A.

Sometimes this tune is played as only letter A (head and solos).

Counter-melody (Intro) is sometimes played:

Alternate changes, bars 13-16, letter A:

Additional lyric for letter A:

Oi! Baía ai, ai!
Baía que não me sai do pensamento, ai!
Faço o meu lamento, oi!
Na desesperança, oi!
De encontrá pr'esse mundo o amô que eu perdi
na Baía, vô contá.

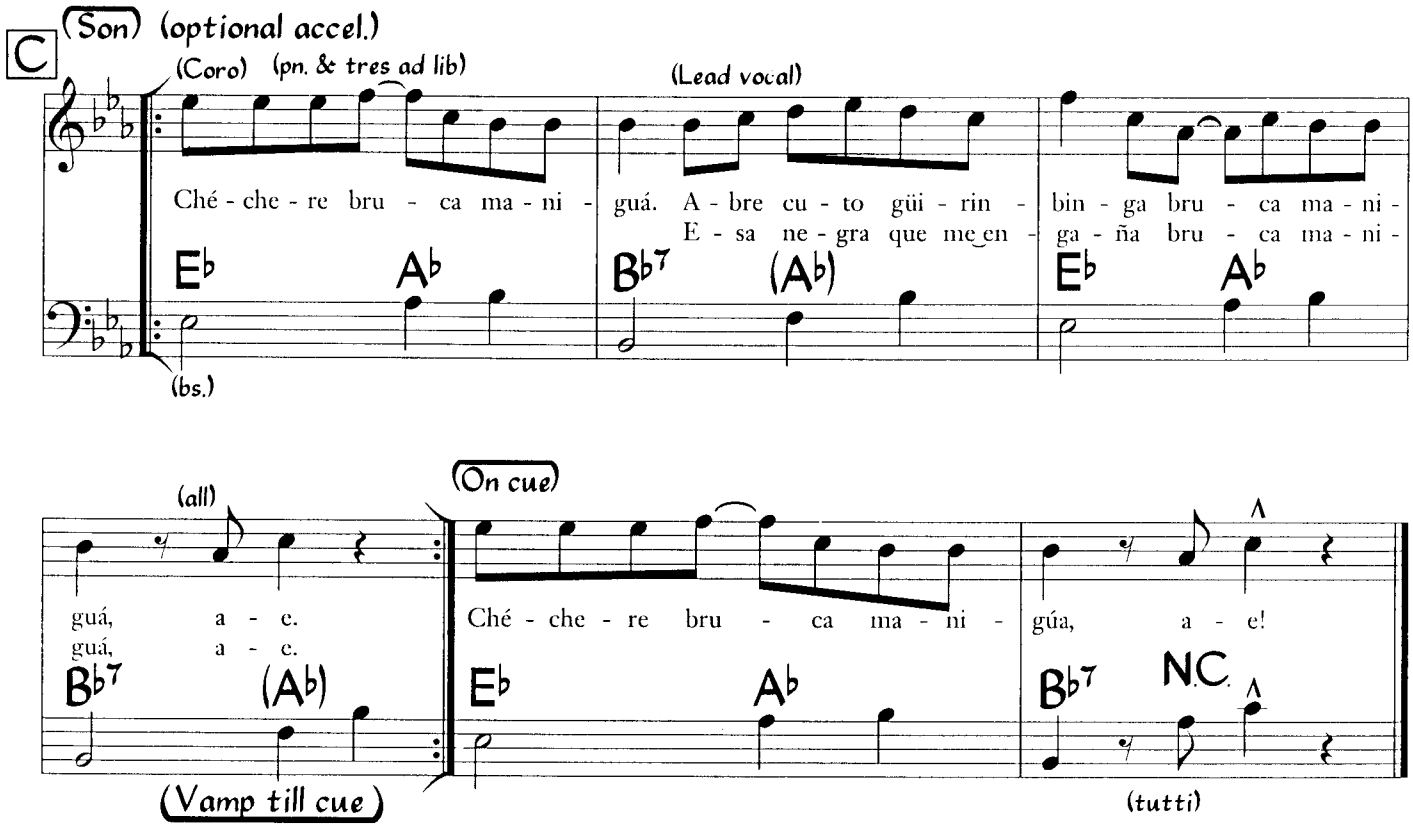
Bruca Maniguá

Arsenio Rodríguez
(as played by Abelardo Barroso & Orquesta Sensación)

Afro-Son
♩ = 110

©1937 (renewed) Peer International Corp. All Rights Reserved Used by Permission



Alternate lead vocal lyric at letter C:

"Bicho malo nunca muere bruca maniguá, a - e."

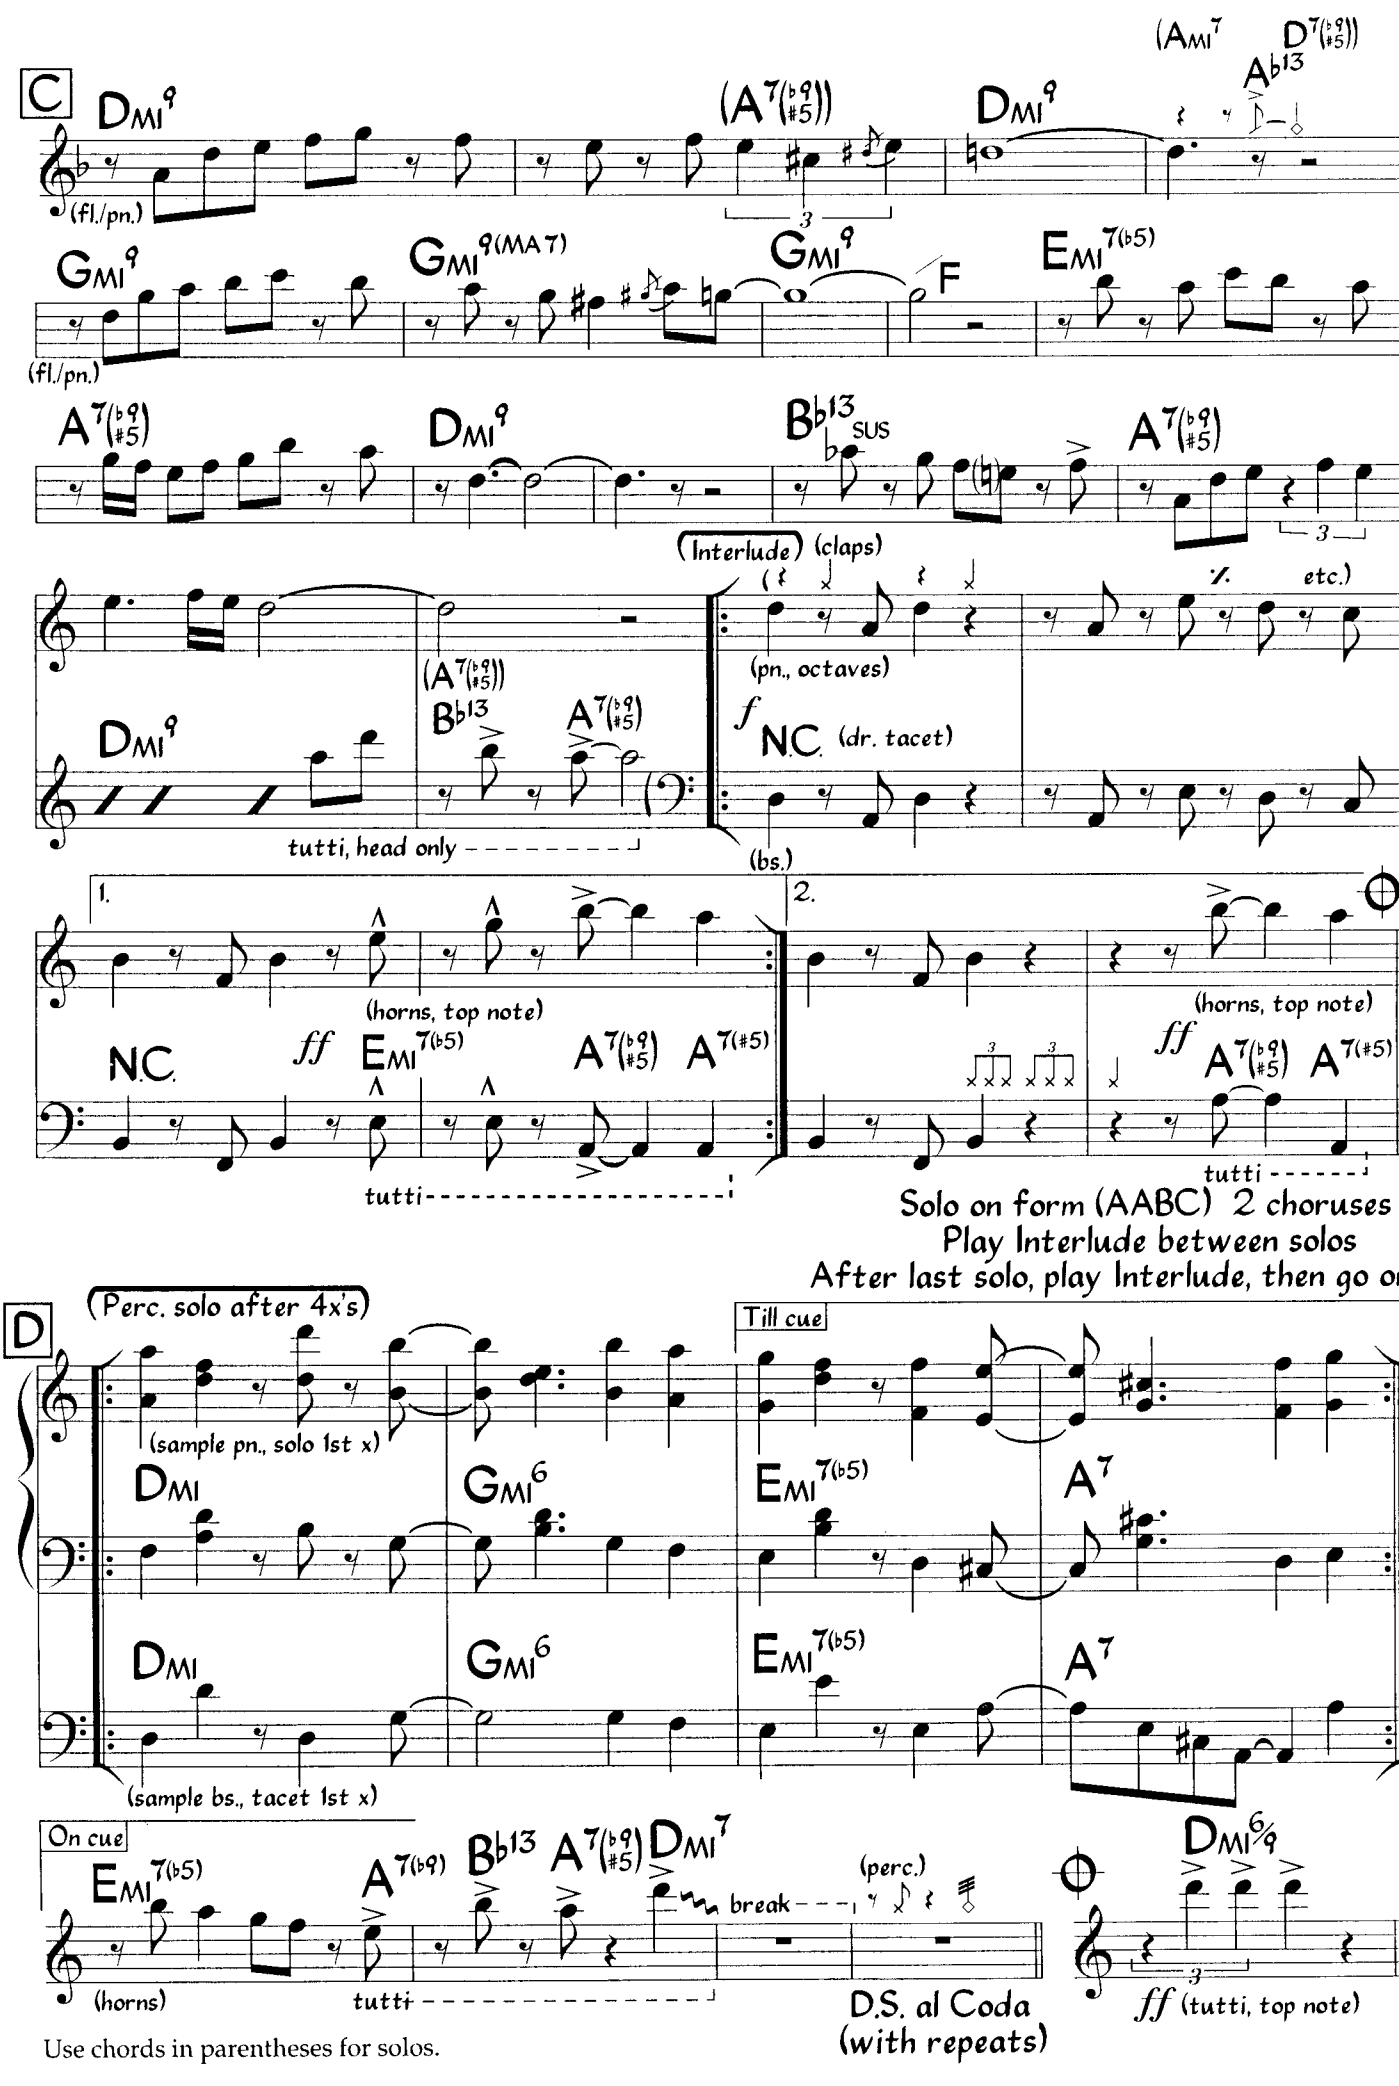
This lyric is a mixture of Congolese and Spanish, as spoken in rural Cuba.

Building Bridges

Memo Acevedo
T. Promane
(as played by Memo Acevedo)

Jazz Mambo ♩ = 110
(2-3 Clave)

©1991 Esmeralda Music. Used by Permission



Use chords in parentheses for solos.

Cachita

Rafael Hernández
(as played by Orquesta Aragón)

Son ♩ = 120

©1936 Peer International Corp. Copyright Renewed Used by Permission

This is a "generic" arrangement. The first chorus may be instrumental, omitting the first ending of letter A. (Vocal enters at pick-ups to D.S.)

Son Montuno ♩ = 134
(2-3 Clave)

2nd verse (letters A & B on D.S.):

Dime si es cierto que los muertos van al cielo
y que allá arriba pueden hablar entre sí;
y llevaré por lo menos el consuelo
que volveré con los míos que perdí.

Y cual vendrá de mis amigos a mi tumba,
si cantarán a mi nombre los trovadores
y cual será la que vendrá de mis amores
y sin rencores mi retrato besará.

B. 2nd Verse:
(After solo)

Coração de ator, de bailarino, do som, do seu cantor.
Tem atrás mil pessoas, mão de obra e suor.
Tem mulher, tem amigo, tem menino, tem cor de multidão,
tem o vento que sopra no destino um sabor que manda seguir!
Que deixa ele ir.

Note: Last solo may end at B, vocal as is B to end, with "B, 2nd Verse".
Chords in parentheses are used for solos.

É

Luis Gongzaga, Jr. ("Gonzaguinha")

Second Verse:

Vestido a la ultima moda y perfumado,
con zapato en colores Yeyé bien lustrados.
Los que encuentra en su camino los saluda: "¡Hey Man!"
Que feliz es Juan Pachanga, todos juran.

Pero lleva en el alma el dolor de una traición
que solo calman los tragos, los tabacos y el tambor.
Y mientras la gente duerme, aparece
Juan Pachanga con su pena ye amanece.

The recorded arrangement has an extended intro.

Mountain Flight

Music - Toninho Horta
Lyric - Tom Lellis
(as recorded by Tom Lellis)

©1988 Manulu Music. Used by Permission

3rd Verse: (letter B on D.S.): Under forest cover discover a world, fantasy unfurled,
and from mountain majesty a crown of green fit for a queen the likes of you.
Won't you come and join me in paradise?
Piece of cake so just take a nice big slice.
The mountain top is here, and from the top it is clear. (To Coda)

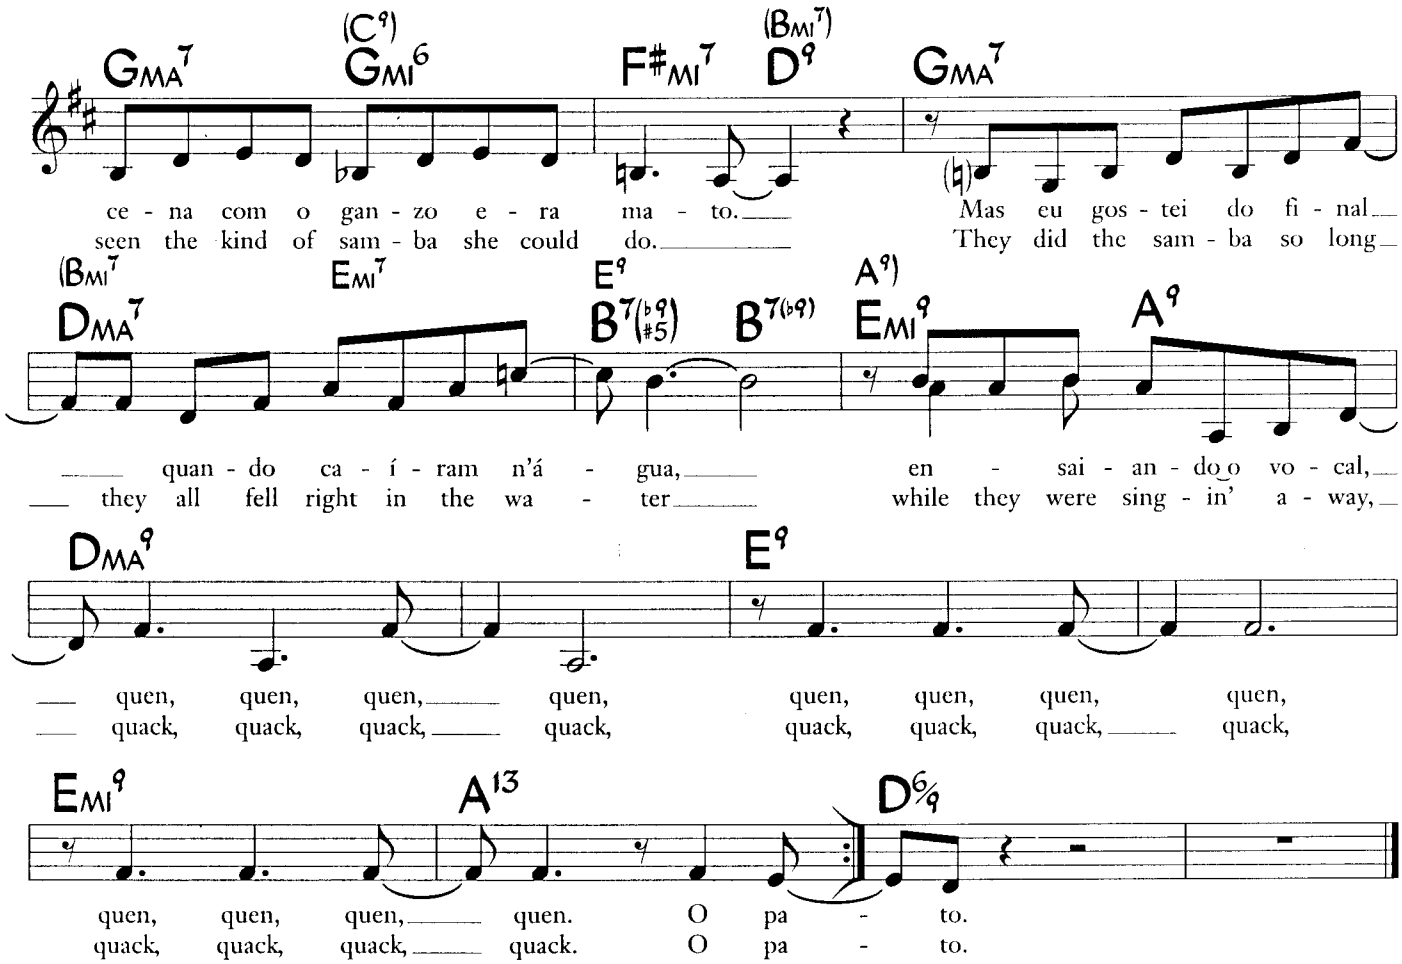
O Pato

Jaime Silva & Neuza Teixiera
English Lyric - Jon Hendricks

Samba

©1960 (renewed), 1962 (renewed) Edicoes Musicais Samba Ltda, Rio de Janeiro, Brasil. TRO-Cromwell Music, Inc. New York, NY controls all publication rights for the



Additional English lyric for letters A and B, second time:

O Pato, the duck was happy to begin it, quack, quack,
and he was really gettin' in it, quack, quack.
He was dancin' to the samba, the samba, the samba.

O gooso, the goose came fast as he could move, honk, (honk.)
The bossa nova had 'em dancin' the new thing, the new swing.

(to letter C)

Obsesión

Bolero (Slow Latin)

Pedro Flores

* Can also be played fast (Double-Time Feel).

LENY ANDRADE

Obsession

Dori Caymmi, Tracy Mann &
Gilson Peranzetta

Calango ♩ = 162-182

The rhythmic style of this composition is a calango, something like a baião.

©1988 Berna Music. Used by Permission

Additional lyric at letter A on D.S.:

I never hear about the pain in your past.
You never talk about the places you've been.
Each time you say that you love me
I find you are lying again.

And still you know you rule my dreams with your charms.
You still put all those silver clouds in my eyes,
Make me believe you're a blessing
When you are a curse in disguise,
An obsession that can't be denied. (to Coda One)

This chart is based on a combination of several recorded versions.

Obsession (Rhythm Section)

The rhythmic style of this composition is a calango, something like a baião.

Guitar sounds one octave lower than written.
This chart is based on a combination of several recorded versions.

Oferere

Oscar Hernández & Daniel Ponce
(as played by Daniel Ponce)

Second verse (letter A & B, 2nd time):

Era um dia, era claro, quase meio,
era um canto calado sem ponteio,
violencia, viola violeiro,
era morte, metal, meu enterro.

Era um dia, era claro, quase meio,
tinha um que jurou me quebrar,
mas não lembro de dor nem receio,
só sabia das ondas do mar.

Jogaram a viola no mundo
mas fui lá no fundo buscar,
se eu tomo a viola, ponteio,
meu canto não posso parar, não.

Quem me dera agora eu tivesse (etc.)

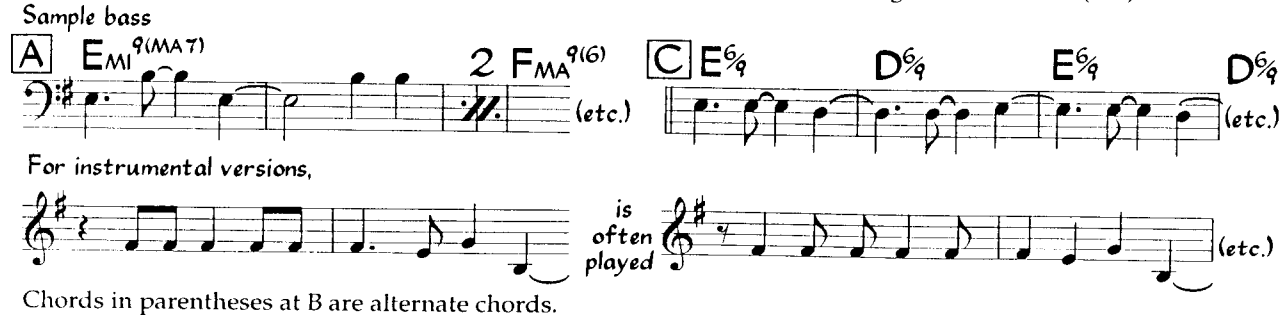
Third verse (letters A & B, on D.S.):

Era um, era dois, era cem,
era um dia, era claro, quase meio
encerrar meu cantar já convem,
prometer um novo ponteio

Sete dias de ser por inteiro,
eu espero não vá demorar,
esse dia estou certo que vem,
diga logo a que vem prá buscar.

Correndo no meio do mundo,
não deixo a viola de lado,
vou ver o tempo mudado,
novo lugar prá cantar - a.

Quem me dera agora eu tivesse (etc.)



Chords in parentheses at B are alternate chords.

2nd verse (Letter B, 2nd x)

Unas sueñan con capa de armiño,
otras quieren un televisor,
hay algunas que piden castillo,
pero todas gozan el vacilón.

3rd Verse (Letter B, 3rd x)

Unas tienen la cara bonita,
otras tienen naríz de ratón,
las hay gordas, también delgaditas,
pero todas gozan el vacilón.

D.S. al Coda
(with repeat)

(Vamp & fade)

(2nd verse)

No arrostão dos pescadores.
Vinha o céu dos sonhadores.
Feito à mão por bordadeiras,
com laternas de traineiras

Vinha tudo que eu sonhava. (meu amor)
Vinha o rio que eu pescava. (meu amor)
Meus tesouros e meus mapas,
meus navios em garrafas,
meu destino de pirata.

2nd Verse, letter A on D.S.:

Vejo o todo da festa dos navegantes,
pairo sobre a cidade do Salvador.
Quero de novo estar onde estava antes.
Passo pela janela do meu amor.

Costa Brava, Saara, todo o planeta;
luzes, cometas, mil estrelas do céu;
pontas de luz vibrando na noite preta;
tudo quanto é bonito, o tapete e eu.

(English lyric by Lani Hall)

A: Now the world is empty faces that I see,
Don't care to ever know love.
You gave to me so much when morning made our song,
and now it seems so far.

C: Oh, what can't I mean for stars? The song it means too much.
So many things to know when twilight seems to go
The long night just for dreams, you say to me, "Again . . ."

C: Oh, just say to me, "Again." Look only for the sun.
I can't believe you're gone. No, never would we try.
Our hands would dance the way, without the time to cry.

A: Now I see the night-time shadows breaking over
dreams that have no more to say.
If time will pass I'll wait for you until
and then I'll wait for you again.

(No 3rd Verse in English lyric.)

2nd Verse (letter A):

Você é forte, dentes e músculos,
Peitos e lábios.
Você é forte, letras e músicas,
Todas as músicas que ainda hei de ouvir.

No Abaeté areias e estrelas,
Não são mais belas
Do que você, mulher das estrelas,
Mina de estrelas, diga o que você quer.

To letter B (Chorus)

3rd Verse (letter A):

Gosto de ver você no seu ritmo.
Dona do carnaval.
Gosto de ter, sentir seu estilo,
Ir no seu íntimo, nunca me faça mal.

To letter B (Chorus) (Vamp and fade on B)

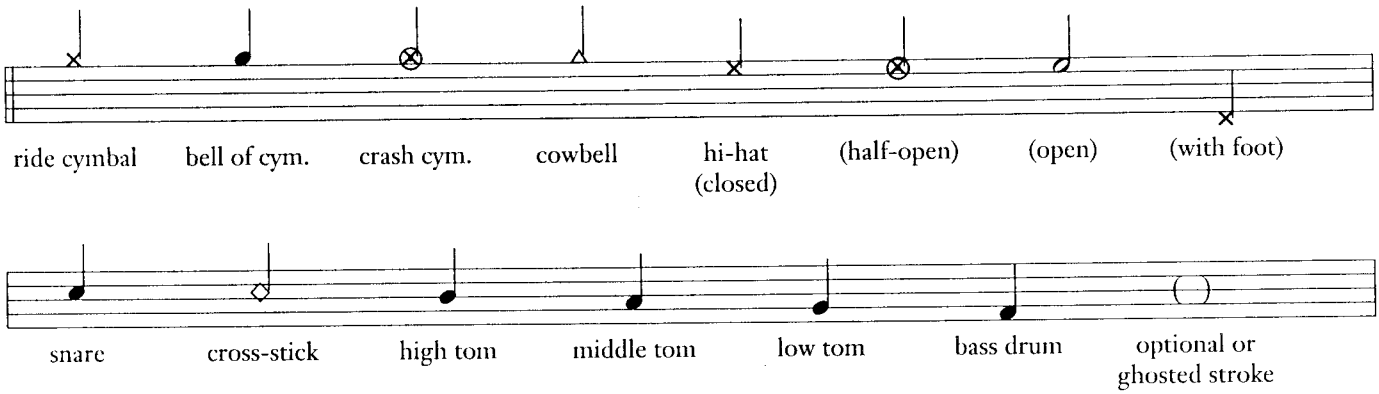
Appendix 1 - Rhythm Section Appendix

This appendix was transcibed by drummer Kendrick Freeman, with input from Rebeca Mauleón-Santana, Larry Dunlap and percussionist Michael Spiro. Portions of the beginning section on rhythmic styles were previously published in "THE SALSA GUIDEBOOK" by Rebeca Mauleón-Santana and also "THE BRAZILIAN MUSIC WORKSHOP" by Antonio Adolfo, both available from Sher Music Co., P.O.Box 445, Petaluma, CA 94953.

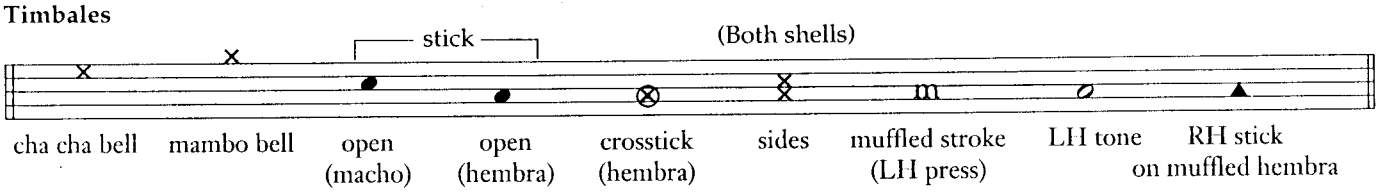
NOTE:The following examples are simplified arrangements of styles that have a rich tradition, each with many variations. These are offered as starting points only, not as definitive "beats". Please see the "Sources" Appendix as a place to begin listening.

EXPLANATION OF NOTATION

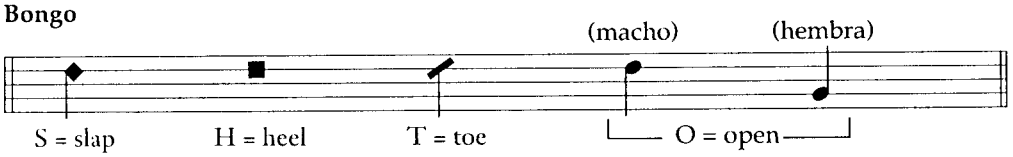
Drumset



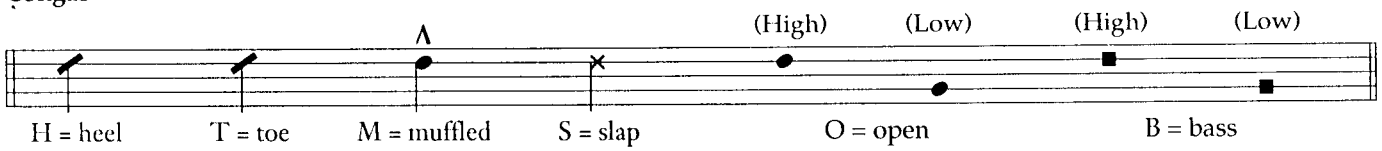
Timbales



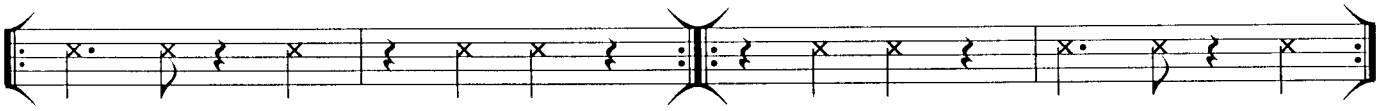
Bongo



Congas



3-2 Son Clave



2-3 Son Clave
